25X1 13. [ ] Carl Duckett and David Brandwein, accompanied by John S. Warner, met with Senators Clinton P. Anderson and Margaret Chase Smith with Jim Gehrig also present. They were brought up to date on the Soviet space program. The briefing covered about an hour and, after a number of questions, it seemed that they received all of the information they desired. Both expressed their appreciation for our taking the time and again complimented the Agency on accumulating this type of intelligence. 25X1
